

Waterfall Walk

Map Reference for car park is: 52.064790, -3.802933

BLUE Route - from end to end is about 2.5 miles, excluding detours. Walk along the lower part of the valley up to the waterfall as it pours off the Mynydd Mallaen. This blue route is well marked for the most part.

The dotted blue line represents the way marked route, although there are numerous options via paths or tracks to make up your own version of this walk.

Would recommend the use of appropriate OS map, as this is a mere illustration for reference purposes.
